People's Community Market is creating a full-service grocery store in West Oakland that will offer a wide selection of fresh foods, groceries and prepared foods at affordable prices. Our store will also provide financial services and support wellness through cooking classes, health screenings and dietary counseling. We will provide good jobs, training and ownership opportunities to local residents. And our Front Porch Social Hall will offer a space for social activities, gatherings and live entertainment.

If you live, work or worship in West Oakland, we welcome your input and participation in creating our store. Come to the event and tell us what groceries and services you want, what events you'd attend and how you want to help. There will be information about joining our Community Advisory Council and becoming a Founding Shareholder in our community business. This will be your neighborhood grocery store. Help us make it great.
